

Results for minors (under 18 years old, except in Nebraska, under 19 years old) cannot be accessed via MyChart.

Results for minor patients will be delivered via text or telephone call to the number provided during registration. This generally takes 1-2 days, but in the event of laboratory delays, results may take longer. You may also take advantage of other convenient ways to actively check for a minor's test results, including:

- Accessing our automated test result system Toll Free at 866-389-2727 from the mobile phone number you provided when scheduling your testing appointment, or texting 888-444-5668 the word RESULTS along with the minor's Date of Birth in MM-DD-YYYY from the mobile phone provided when scheduling the testing appointment.
